

# Motorcycle Trauma First Aid

Join us for an informative session on Motorcycle First Aid Trauma, where you'll learn life-saving skills that can make all the difference in an emergency.

This session will cover essential topics such as Scene management, triage, airway management, bleeding control, spinal injury protocols, fracture management and when and how to remove a helmet.

Tailored specifically for motorcyclists, we will focus on practical techniques you can use in real-world situations to assist injured riders until professional help arrives.

Whether you are a seasoned rider or new to the road, this session will equip you with the knowledge and confidence to respond effectively in a trauma situation.

---
